**NOTE:** Base water and wastewater rates will be held at 2017 levels until at least 2020. Under the former Heritage Village Water Company ownership, the Connecticut Public Utilities Regulatory Authority (PURA) ordered the addition of a Water Revenue Adjustment (WRA) on water and sewer bills issued after April 1, 2017. The exact percentage to be applied to the total water and sewer accounts is determined annually based on the company's actual year end revenues. If the company collected more than authorized in their last rate case, a credit will be applied; if the company collected less than authorized in their last rate case, a surcharge will be applied. The WRA surcharge/credit appear as separate lines for water and sewer on your bill.
